Legal disclaimer: This PDF file is hosted by the website Em Forma. The original pages of this document have remained unchanged for posterity and preservation. If this document is yours and you want us to remove it from our database just contact us through our communication channels. Unfortunately we are unable to manage documents outside our domain (emforma.net). The management of these documents might be hard years from now as the document is shared around. We must display this page to offset some of the hosting costs.

Goal: We are building one of the biggest studies database and lifeboats in the world for health content. These documents are used as references throughout our content pages to serve as proof and further research material. The management of these documents are useful to generate more rich data.
